

DRINKING WATER RESOURCES FOR OREGONIANS

Water is a **public trust issue** and you have a right to know what's going on with your drinking water!

First, search for your water provider here: <https://yourwater.oregon.gov/wssearch.php>

Ecotrust "Drinking Water Data for Coastal Communities" - find more data on water <https://ecotrust.org/drinking-water-data-for-oregon-coast-communities/>

"Drinking Water of Coastal Oregon" - EcoTrust Map Tool <https://ecotrust.maps.arcgis.com/apps/MapJournal/index.html?appid=3d13b3b434254dfdb2ae6084619bf619>

Environmental Working Group - Tapwater Database <https://www.ewg.org/tapwater/>

Numbers of concern if something is wrong with your drinking water source: <https://www.oregon.gov/oha/PH/HEALTHYENVIRONMENT/DRINKINGWATER/Pages/Program-Information.aspx>

Map to find previous sprays and clearcuts: <https://sprayfreecoast.org/sprays-across-oregon/>

Get notified for future sprays and clearcuts near your property and water source: <https://ferns.odf.oregon.gov/E-Notification/>

And here's what to do about it:

<https://sprayfreecoast.org/what-should-i-do-when-i-receive-a-notification/>

Labs that will test your water for chemicals:

ALS Labs

1317 South 13th Ave.
Kelso, WA 98626
Phone 360-577-7222
www.alsglobal.com

Pacific Agricultural Laboratory

21830 SW Alexander Ln.
Sherwood, OR 97140
Phone 503-626-7943

QUICK TIPS:

- Keep a **written record** of your observations with dates, times, and what you are noticing
- Make sure to contact your local **Oregon Department of Forestry office** and/or **DEQ** (dept. Of Environmental Quality) and **register an official complaint**
- Also keep a **written record** of your interactions with state and federal agencies

Remember: NCCWP is here for you! We can help document your story. Report water quality issues to Oregon agencies and contact NCCWP if you're not sure what to do!
