# Join North Coast Communities for Watershed Protection for a Discussion about the Future of the Jetty Creek Watershed

Saturday, February 3, 2024 at 2:00 pm

St. Mary by the Sea (Parish Hall)

275 S. Pacific St., Rockaway Beach, OR 97136

**\*\*Options for virtual and in-person attendance (see QR Code below)\*\***

Jetty Creek is the primary source of water for Rockaway Beach. During this discussion, Coast Range Association Director and grassroots organizer Chuck Willer will present information on options for land ownership and management. He will discuss safeguarding and protecting drinking water sources, as well as the importance of local, democratic, community involvement in the governance of a drinking watershed. The program will conclude with a Q&A, as well as ideas about

how to get involved in protecting your drinking watershed. || *As a matter of necessity and regardless of land ownership, NCCWP demands no more logging and no more pesticide spraying within our drinking-watersheds. Safe drinking water and clean air are part of the public trust that we all are entitled to have.*
